

The Monday Club (formerly Sion a Sian)

New members are always welcomed, to enjoy a chat and a laugh, along with refreshments.

This Spring we plan to have a couple of guest speakers and we also hope to discuss plans for a trip out in the Summer.

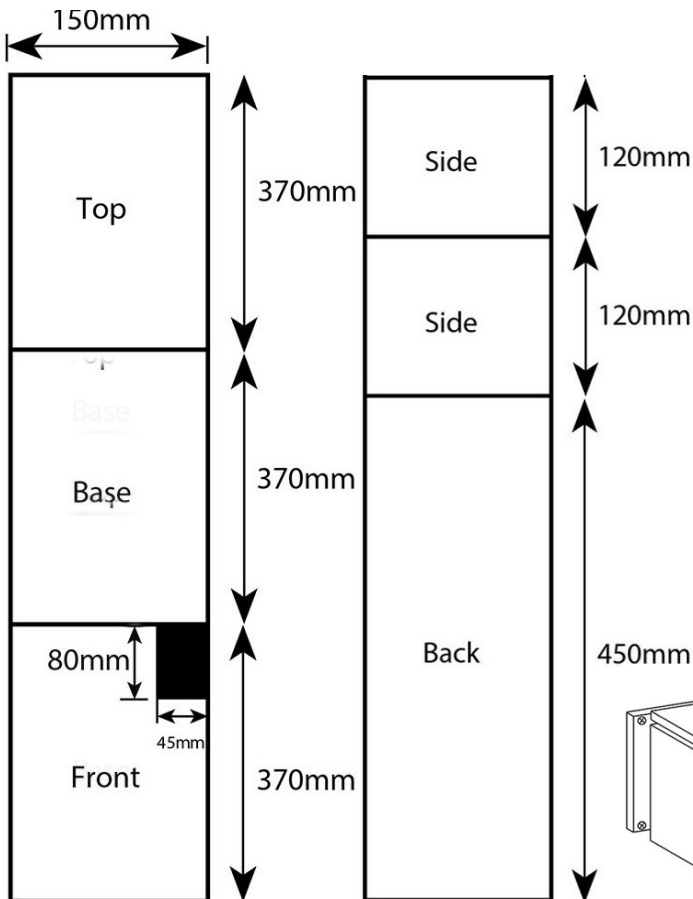

Our meetings are held at 2 o'clock on the fourth Monday of each month in the Pavilion.

The Spring meetings are March 26th. April 24th. May 22nd. We look forward to seeing you.

RSPB DIY Swift nest box

Swift boxes should ideally be positioned **at least 5m above ground, under an overhand or eaves for protection.** Take appropriate precautions when working at height, especially with a heavy nest box. Boxes should face in a North Westerly or North Easterly direction to shelter them from the glare of the sun.
