

DOLWYDDELAN IN BLOOM

Dolwyddelan yn ei Blodau (Dolwyddelan in Bloom) volunteers take great pride in working alongside residents who endeavour to keep the village free of litter, whilst working on environmental projects and as Station platform adopters. It helps keep the area connected, well informed and most importantly, caring for each other and our environment.

This work can only be delivered by working in partnership with the many organisations in the village. The Cenotaph and Bryn y Bedd cemetery are two fine examples, where the Community Council as the landowners of both sites, much appreciate the work Doli in Bloom volunteers carry out.

The floral boxes and planters on the A470 are kindly watered and cared for by Doli in Bloom volunteers who live nearby.

The station platform has received many awards over the years both national and local and our volunteers continue to keep up this excellent work. The Pont Arenig layby on the A470 and the flower bed in Maes y Llan are other examples of working alongside residents. The photos attached are following a recent tidying up event at Pont Arenig. This area also serves as a parking area for tourists visiting the Castle, thus providing a welcome to Dolwyddelan.

The station car park is another fine Doli in Bloom project, where there are picnic benches and woodland walk, plus an area to sit and socialise with friends. This area became a haven of tranquillity during and after the Covid pandemic and demonstrated how fortunate we were to live in a community that cares.

**We welcome new members to come along and 'do their bit',
or just come along for a chat.**
